

## Satellite Navigation

Blackberry GPS is your complete navigation solution. Weather you are driving or walking it provides guidance with voice, graphics and text. You can select routes dependent on speed or distance when driving, or receive true pedestrian routes when walking.

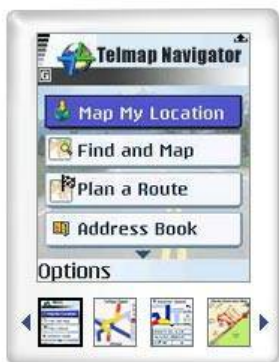

**Clear navigation screen** – detailed maps with turn-by-turn voice text and graphics.

**Advanced search** – Search by address or postcode.

**European Coverage** – Excellent European map coverage.

**Route planning** – Search for fastest or shortest route.

**Extensive information** – Traffic alerts in real-time and POI's (points of interest).
